

**PLASTISUD**

# PLASTISUD

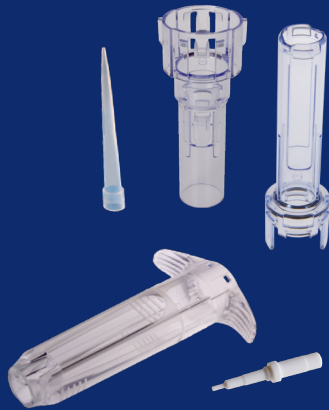

## THE STRENGTH OF A GROUP

Plastisud is a **Global leader** in the design and manufacturing of high precision moulds, from Pilot to high cavitation, since **1964**. With **16 000 m<sup>2</sup> workshop** and **2 000 m<sup>2</sup> test lab** in Castelnaudary Head office (France) and a subsidiary in Kentucky (USA), the company thinks and acts Global.

## A STRATEGIC POLE POSITION

The company performs in

- // Medical
- // Closures
- // Thinwall Packaging with 90% export turnover.

**2** Production Sites

**200+** Technical experts

Moulds up to 144-cavity, single face and stack

**Over 50 years** experience

## A STEADY INVESTMENT IN R&D

**Our Goal:** Offer you the Best time to market thanks to co-development with our expert team

- 3** Project Managers
- 4** Product Managers
- 3** R&D Engineers
- 18** Design Engineers

## ALWAYS AHEAD

- // Dedicated Production Unit for Pilot Moulds
- // Dedicated Machines for Pilot test & pre-production
- // Plastic part lightweighting
- // Expertise in new sustainable resins

## HIGH VOLUME CAPACITY

- // **10 %** yearly turnover invested in cutting-edge machinery and robots.
- // Large production capacity for worldwide deployments
- // Test Lab: 11 Injection machines (from 90T to 750T) for FAT
- // Special bay for System integration

## QUALITY EXCELLENCE

- // Plastisud Patent on Injection / Compression stack moulds (part lightweighting, lower MFi, decreased clamping force...)
- // Plastisud Hot Runner Design & Manufacturing
- // On-time «Plug & Play» delivery
- // On-site training & assistance
